

Instruction

Instruction for Homebound Students

Homebound instructional programs will be considered for students who for health reasons are likely to be absent for extended periods of time. In addition, students whose educational needs dictate extension of educational services away from the school site will be considered for homebound placement. Application for homebound instruction requires approval by the student's physician. Extension of the period of time requires approval by the Department of Elementary and Secondary Schools. The District will comply with all applicable state and federal regulations on assigning students to homebound instruction because of the student's educational needs.
